*Pricing and labeling  
in original **METO** quality*

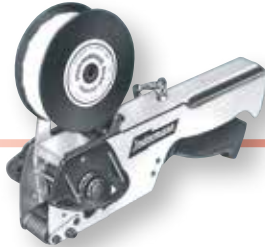

*for retailers, service providers  
and industry*

**METO**®  
A DIVISION OF **Checkpoint** 

## **Innovation is our tradition**

Innovation is all part of our company traditions. Products bearing the **METO** brand name have been available since 1918. The first handlabeler from the company revolutionised pricing operations in 1959. This marked the first in a long line of products which were to have a lasting influence on the market, such as the first pre-print labels with space for printing names and advertising. Or the wavy-edge labels featuring a security cut to prevent so-called „repricing“.

### **Industry-specific handlabelers**

**METO** offers special handlabelers and labels for various applications: medical labeling, weatherproof identification outdoors, labeling within the production process, for example.

**METO** was taken over by Checkpoint in 1999. The **METO** brand was retained as a division of Checkpoint offering the customary high quality. As an internationally operative group we are a global leader in identification, labeling, article surveillance and sales promotion systems. We offer integrated system solutions and first-class services for a smooth flow of goods throughout the supply chain. We are a competent partner to retail, industry and the service sector.

### **Identification and security in a single step**

Clear identification and labeling of your items, advertising messages or an individual pre-print on the label combined with effective electronic article surveillance systems in radio-frequency or electromagnetic technology. The **METO** security labelers apply RF and EM labels in various formats.

## The label

**Several layers.  
Many functions.**

**METO** labels provide for fast, individual and flexible labeling.

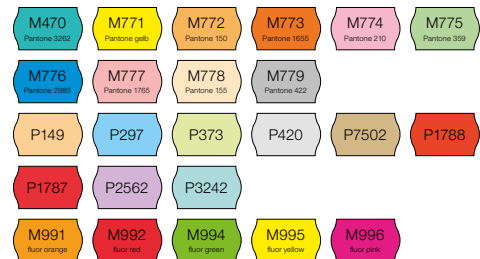

**Effective:** Labels enhance advertising effects – with campaign references or your logo,

for example.

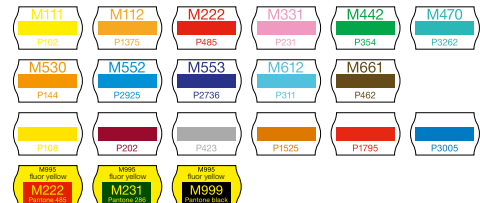

**Secure:** Perforations or cuts to prevent fraud.

Relax cuts ensure optimum matching with the substrate.

Various materials (paper, plastic) are available in a host of colors and eye-catching fluorescent variants.

These are the standard colours for your individual pre-print:

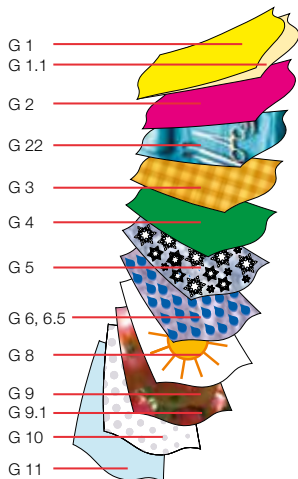

We will be pleased to produce your pre-print label to your individual specifications.

## The label

# The adhesives.

**Variable:** Weather-proof, water-removable or permanent – the **METO** adhesives come in 14 variants to guarantee optimum adhesion on a broad variety of substrates.

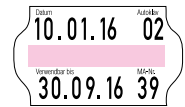

- Adhesive 1** Removable, partly gummed
- Adhesive 1.1** Removable, fully gummed
- Adhesive 2** Permanent Standard
- Adhesive 22** Permanent Steri, special gum for sterilisation labels
- Adhesive 3** Permanent Soft, textile application (for light fabrics and lining materials)
- Adhesive 4** Permanent Plus, stronger adhesive effect than Adhesive 2
- Adhesive 5** Permanent Cool, for cooling and deep-freeze applications
- Adhesive 6, 6.5** Permanent Special, water-removable
- Adhesive 8** Permanent Super, water-resistant, weather-proof, strong adhesive effect (for plastic labels)
- Adhesive 9** Permanent Food, for direct contact with slightly greasy foods (paper label)
- Adhesive 9.1** Permanent Food, for direct contact with slightly greasy or waxed foods (plastic label, PP)
- Adhesive 10** Permanent Dissolving (label and adhesive dissolve completely in water)
- Adhesive 11** Permanent / removable, strong adhesive effect (only for PE, PP labels)

## Identification / Coding / Packing

# Warehouse / Logistics / Industry / Medical Reliable identification.

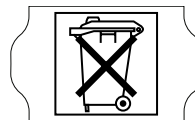

We offer label solutions for the precise identification of your products to facilitate the control of incoming and outgoing goods or for exact marking from production through to quality management. Solutions are also available for process control purposes in the field of medical sterilisation (steam, ethylene oxide, gamma).
